Тестовое задание на позицию -
Full stack Developer (Python)

Using django implement CRUD application for user management.

User fields. All required
 - **username (unique)**
 - **first_name**
 - **last_name**
 - **email (valid email address.)**
 - **password (min length 8. at least one number and one letter)**
 - **user_type ("Admin", "Driver')**

Form should display validation errors.

In css class naming will be good if you use BEM
https://ru.bem.info/methodology/quick-start/#%D0%91%D0%BB%D0%BE%D0%BA
Don`t use any css frameworks, just your own css code and markup.

Design for this task
https://xd.adobe.com/view/47ceae08-f089-431b-bd2f-a02a7045806f-129d/

Using django REST framework, unit tests, limiting access to api, throttling, good documentation will be plus.
